

## How to maximize the font size in KWizcom Tag Cloud web part?

### Summary

This article outlines the steps on how to maximize the font size in KWizCom Tag Cloud web part?

### Product & Version

KWizCom Tagging Feature Standard Evaluation 3.x.xx for SharePoint 2007

KWizCom Tagging Feature Standard Evaluation 13.x.xx for SharePoint 2010

### Resolution

1. Open TagCloudListControl.ascx file for edit. Located C:\Program Files\Common Files\Microsoft Shared\Web Server Extensions\14\TEMPLATE\LAYOUTS\KWizCom\_TaggingFeature on your SharePoint server

2. Find **<%# ((TagData)Container.DataItem).FontSize %>**

3. Replace with: **<%# ((TagData)Container.DataItem).FontSize > 15 ? 15 : ((TagData)Container.DataItem).FontSize %>** where 15 is the maximum size of the font.
