

Adding a KWizCom App to a site

To add an app to your site:

1. Go to the site where you want to add the app
2. Click on the gear  icon in the top left
3. Click add an app. You should now see a list of apps that can be added to your site.
4. Select the KWizCom product app that you want to add

Apps you can add

Newest Name

KWizCom Countdown
[App Details](#)

KWizCom Dynamic Column Permissions
from KWizCom
[App Details](#)

KWizCom Conditional Formatting Column
from KWizCom
[App Details](#)

KWizCom KPI Column
from KWizCom
[App Details](#)
