

KWizCom product activation tutorial

After you have purchased a license for your KWizCom add-on (for on-premise SharePoint) or App (supported on SharePoint Online), you can install and activate the product on your SharePoint environment.

Install KWizCom Product for on-premise SharePoint environments

Please follow the instructions in this article to install your KWizCom product:

[KWizCom product installation/upgrade tutorial](#)

Install KWizCom Apps from the SharePoint Online Store

Please follow the instructions in this article to install your KWizCom apps:

[KWizCom app installation](#)

Activate Product

KWizCom currently has 3 types of product licenses. [Full trust farm solutions](#), [Apps](#) and [Tools](#). After you have installed your KWizCom product, please follow the instructions in these articles to activate your license according to your product license type:

- [KWizCom Full trust farm solution](#) activation Ex: [product catalog](#)
- [KWizCom App or Tool](#) activation Ex: [product catalog](#)

That's it! Your product is now fully activated

If you have any issues activating your product, please contact KWizCom's Activation department by Email at activation@kwizcom.com for assistance. If possible, please include your Account ID or Order number in the Email.
